Hammerstein Highland House – Montego Bay, Jamaica

Day 1

Arrival in Montego Bay, Jamaica

After collecting your luggage and clearing customs, meet your One Love host outside baggage claim.

Check-in at Hammerstein Highland House, one of the most unique villas in Jamaica

Originally built in the 1940s for English actress Gladys Cooper, the Highland House has long been the site of momentous occasions. Perhaps the most notable moment in history occurred when 2nd owner, Broadway legend Oscar Hammerstein II. Hammerstein and his wife Dorothy purchased the estate as their personal retreat from the fast-paced New York scene. They spent many an evening entertaining famous friends and relaxing to the glorious scenery and tropical breeze. As you take in the same view of the hills and the Caribbean Sea beyond, it's easy to imagine Hammerstein writing "The Sound of Music" lyrics that reflect the magical beauty.
